

## TRUST VESSELS CAN'T USE CANAL

Senate Passes Panama Bill by Vote of 47 to 15.

### SOME IMPORTANT PROVISIONS

American Ships Will Have Free Passage, Vessels Owned by an Illegal Industrial Combination Are Prohibited From Using the Waterway and Railways Must Give Up Water Lines If It Is Proven They Are Stifling Competition.

Washington, Aug. 10.—The Panama canal administration bill, providing free passage to American ships, prohibiting railroad owned vessels from using the waterway and authorizing the establishment of a one man government when the canal is completed, was passed by the senate by a vote of 47 to 15.

The provision for free tolls, which was fought out in the senate Wednesday, was endorsed again just before the passage of the measure.

Attached to the bill as it passed the senate were two important amendments directed at trust or railroad control of steamship lines. The first, by Senator Reed, would prohibit ships owned by an illegal industrial combination from using the canal; and the second, by Senator Bourne, would require railroads to give up water lines that might otherwise be their competitors, if it were proved that by their ownership they were stifling competition.

Opponents of the free toll provision for American ships, against which Great Britain made formal protest, carried their fight up to the last moment of the bill's consideration.

#### Beaten by Overwhelming Vote.

Just before its passage Senator Root moved to strike out the section giving free tolls to American coast vessels and Senator Hoke Smith of Georgia moved to strike out the provision for free tolls to American ships in the foreign trade. Each motion was defeated by an overwhelming vote.

As the bill passed it would permit American coastwise vessels to pass through the canal free without conditions; while American foreign trade ships might pass through free if their owners agreed to sell the vessels to the United States at a fair price in time of war or emergency.

The great fight centered about the provision to prohibit railroad owned ships from using the canal. The broad terms of the original house bill, which would have required every railroad in the country to dispose at once of any steamship lines with which it might otherwise compete, were not accepted by the senate. This was modified so that railroads would be prohibited only from owning steamship lines that may operate through the Panama canal.

The Bourne amendment, however, adopted later by a vote of 36 to 25, restored much of the vigor of the anti-railroad provisions of the house bill. It provided that if the interstate commerce commission should find that any railroad had an interest in a competitive line of steamers, and that such interest was injurious to the welfare of the public, the commission might compel the railroad to dispose of its steamship connections.

#### Makes an Ineffective Fight.

Senator Brandegee, chairman of the Inter-oceanic canal committee of the senate, made an ineffective fight on the rigid provision against railroad ships. After the amendments to the house bill had been adopted he moved that the whole paragraph relating to railroad control be stricken out. This action was defeated, 45 to 18. A subsequent proposal by Mr. Brandegee to permit any ships to use the canal, giving to the interstate commerce commission power of control over them, also was defeated.

The Reed amendment against trust owned ships was called up for a second vote before the bill passed and was adopted on final passage by a vote of 36 to 23.

The completed canal bill finally was passed, with Senators Burton, Crane, Gallinger, Lodge, Root and other opponents of the free toll and anti-railroad features of it voting against it. In the form in which it returns to the house the bill adds to the general scheme for operating and governing the Panama canal, provisions for the admission to American registry of any foreign built ships owned by Americans, provided they are operated wholly in the foreign trade.

## COLONEL WILL TAKE REST

Roosevelt Wants to Forget Politics for a Week.

Oyster Bay, N. Y., Aug. 10.—For one week Colonel Roosevelt is going to forget politics, if he can, and take a rest. When that week is ended he will take up the fight again to carry it on unremittently. The colonel returned home from Chicago and announced his plan for the week's rest, saying he had told his secretary he wished to see no one at Sagamore Hill.

He expects to spend the mornings with Sirdah, his riding horse, and the afternoons at tennis or boating, occasionally helping the farmhands in the field.

## TO ALLOT COAL LANDS TO CITIES

Secretary Fisher Favors Passage of Such a Law.

### DANGER IN PRIVATE PATENTS

Cabinet Officer Recommends That Congress Grant 640 Acres of Coal Land to the City of Grand Junction, Colo., as a Preliminary Step—Believes Such Action Is Real Solution of Conservation Problem.

Washington, Aug. 10.—Secretary Fisher of the department of the interior has a plan to allot government coal lands to cities, which in turn may operate them under certain regulations to supply municipal needs, as well as those of citizens.

As a first step in the plan Secretary Fisher has recommended that congress pass a bill granting 640 acres of coal land to the city of Grand Junction, Colo., and meanwhile the interior department has withdrawn from entry the land the city desires.

Cities in Colorado, Wyoming, Utah, Montana, Idaho and other public land states west of the Missouri river would be most vitally affected by Secretary Fisher's plan.

The general bill he offers would authorize the secretary of the interior, in his discretion, to patent 640 acres of government coal land for each city and 160 for each town, under conditions providing for prompt and continuous development of the coal, the prevention of any assignment or transfer of the land, the safeguarding of the health and safety of laborers mining or handling the coal, the prevention of undue waste of mineral resources and other restrictions.

The secretary believes that any such patent should be safeguarded by the provision that the title of the land patented shall revert to the government if any city or town to which coal land shall be patented shall, at any time, fail to perform any of the conditions of the patent.

#### Aims to Insure Abundant Supply.

Secretary Fisher maintains that the aim of the federal policy with respect to government owned coal lands is to insure the public an abundant supply at prices which will yield a fair return, and no more, upon the capital invested in mining and handling the coal.

The leasing system, Secretary Fisher thinks, is the method for the private exploitation of government owned coal lands which can protect the public. By retaining the title in its own hands and properly conditioning the lease it will be possible to protect the public from extortion. Such a policy, Mr. Fisher holds, is entirely consistent with the principles of conservation.

Although Secretary Fisher believes that a long time lease for a nominal consideration would be better for some purposes than an outright grant, because it would admit of greater flexibility in dealing with each city, according to local circumstances and conditions, he asserts it is possible to embody in a patent to a city the most essential conditions necessary to effect the purpose of the federal conservation policy.

It is desirable, he says, to retain in the hands of the federal government a certain amount of supervision, to make sure that the city will actually develop the coal without waste and with due regard to the health and safety of the miners; also that all transactions of the city be given the fullest publicity to prevent any opportunity for corruption abuses and to keep the federal government and the general public fully informed as to just how legislation of this character is operating in actual practice.

## LORIMER'S BILL TO BE CUT

Senate Will Not Allow the \$125,000 Asked.

Washington, Aug. 10.—William Lorimer's expense account to the senate for expenditures, covering his fight to retain his toga, will be unceremoniously blue penciled by the upper house. The erstwhile senator from Illinois put in a bill totaling nearly \$125,000. It was said that the committee which investigated the Illinois senatorial election will suggest that only \$35,000 or \$40,000 be allowed.

## ONE WARSHIP IS CERTAIN

House Democrats Get Together on Naval Program.

Washington, Aug. 10.—Battle ship and no battleship Democrats in the house practically effected a compromise by which provision will be made in the naval appropriation bill for one superdreadnought.

As a result of the understanding a petition was circulated for a caucus next Wednesday night. It is expected the difficulties by that time will have been smoothed out and there will be no hitch in putting through the program.

## CLARENCE S. DARROW.

Arguments in Bribery Case Will Begin Monday Morning.

Photo by American Press Association.

## ALL DARROW EVIDENCE IN

Final Argument in Bribery Trial to Begin Monday.

Los Angeles, Aug. 10.—The taking of evidence in the bribery trial of Clarence S. Darrow has concluded and by stipulation on both sides final arguments will be begun Monday morning.

Mrs. Bert H. Franklin, wife of the former McNamara defense detective, who confessed to bribing two jurors, was the last witness called by the state in rebuttal and at the end of her direct examination the defense announced that there would be no rebuttal.

"We don't need any," Chief Counsel Rogers commented.

## BELIEVES BECKER WILL BREAK DOWN

New York District Attorney Hopes to Secure Confession.

New York, Aug. 10.—Although Police Lieutenant Charles Becker declared that he had nothing to confess in connection with the Rosenthal murder, of which he is the accused instigator, District Attorney Whitman learned that the police lieutenant was ready to make some disclosures under certain conditions. The conditions imposed, however, are more than the district attorney is willing or able to grant and he is waiting for Becker to make other overtures.

Strong influences are being exerted, the prosecutor has learned, to keep Becker from making any disclosures strengthening the evidence regarding alleged gambling graft on the part of other high police officials, whose indictment Mr. Whitman seeks, but the district attorney expressed a strong conviction that Becker eventually would break down.

Mr. Whitman also learned that Jack Sullivan, who has been involved in the murder plot by several witnesses, was ready to make a confession that would corroborate the stories told by Bald Jack Rose, Bridge Webber and Harry Vallon, who have obtained a promise of leniency for turning state's evidence.

## ADMITS WHOLESALE ARSON

Former Fire Commissioner's Son Couldn't Resist Impulse.

Greenfield, Mass., Aug. 10.—Bernard C. Murray, son of a former fire commissioner of Hartford, Conn., confessed to having set fire to thirty hotels and public buildings in Connecticut and Western Massachusetts during the last four months.

While no lives were lost in the many fires hundreds of persons, a majority of them hotel guests, were imperiled and the total property loss is estimated to be more than \$250,000.

In his confession Murray, who is twenty-four years old, said: "I could not resist the impulse to do it, although I realized the consequences."

## DEPORTATION PARTS FAMILY

Woman and Boy Must Leave Despite Senator's Efforts.

Washington, Aug. 10.—Nine-year-old Stanley Stewart and his mother, appealing for permission to cross the threshold of the United States to join other members of their family and become American citizens, were ordered deported back to England.

A special medical board at Quebec pronounced the little fellow feeble minded. The mother must return to England with him as an accompanying alien, but three other children were admitted to go to their father at Omaha.

Senator Hitchcock of Nebraska made the 1,000-mile trip from Washington to Quebec to see if the separation of family ties could be prevented. He is said to have been satisfied that no other course was open.

## MEASURES FOR LABOR'S BENEFIT

Several Have Passed at This Session of Congress.

### JUDGE ARCHBALD'S CASE.

Different Views as to Whether It Should Be Tried at Once or Be Postponed Until November—Legislators Who Have Got Their Bills Through Have Left For Their Homes.

By ARTHUR W. DUNN.

Washington, Aug. 10.—[Special.]—In nearly every session of congress efforts are made to pass legislation for the benefit of labor. It would be idle to say that the influence of the votes of workmen does not furnish the great power behind these measures and the workmen have a right to insist that they have legislation which will benefit them. Several bills in the interest of workmen have passed this session, and much credit must be given to Congressman Wilson of Pennsylvania, who, as chairman of the labor committee, has been instrumental in getting these measures through.

The most important is the Sulzer bill creating a new department of labor, which passed the house by a large vote. Senator Borah has already reported the measure from his committee on labor in the senate. The other bill is for a general labor commission, which has passed the house and has been reported in the senate.

Of Doubtful Utility. The commission bill is of doubtful utility. Any commission means a postponement—putting off consideration. If there is a department of labor it ought to do everything that a commission could do in the way of gathering information. In fact, the present bureau of labor ought to do that work. Then the two committees of congress ought to be able to get information as to what is needed in the way of labor legislation.

It has been claimed that the industrial commission of a dozen years ago gathered a great deal of information. So it did, but it also furnished places for a number of politicians who prolonged its life until congress had to take hold and throttle it.

#### The Archbald Trial.

Different senators had different views as to whether the trial of Judge Archbald should go forward without delay or be postponed until next November. Senator Bailey, who might have been on the side of delay, reasoned that if the man was innocent the sooner he was tried the better for him. If he were guilty he ought not to remain on the bench longer than necessary to remove him.

Senator Clapp of Minnesota, who might have been regarded as favoring a speedy trial, reasoned that a trial before an indifferent court, which was likely to be the case, as the senators were tired and wanted to go home, would not result in a just verdict. His theory was that an indifferent court or jury would not convict even when guilt was proved.

#### Election of the Greater Question.

Senator Borah, Senator Kenyon and Congressman Longworth were in a group discussing the possibility of the election of a president finally coming to the senate. Finally Borah remarked: "There is a greater question than any of these, for it is unlikely that the election will even go to the house. The greater question is in regard to the selection of the electors and the manner in which they will vote when elected."

As Borah is a farseeing senator, he no doubt thinks that the present election will be important on the electoral ticket on account of the complications which have already arisen and which are likely to come up before the presidential election is settled.

#### Have Their Bills Through.

"Look over the list of absentees," remarked a man in the house, "and you can spot the fellows who have got their bills through. You can just bet that no man who has a bill pending of importance to his district has left Washington at this time."

#### Lack of Attention.

There is a great lack of attention to business in both senate and house and particularly in the senate. In the house it has been proverbial for years that only a comparatively few pay attention to what is going on. For weeks past, however, the senators seemed to be indifferent when the most important measures were under consideration. "What's our vote?" is a question that many ask when a roll is called on an amendment or a bill of importance to the whole country. Perhaps it would be better for them to put over important legislation rather than act upon it when they are in such an indifferent frame of mind.

#### Who's Been Smoking?

Congressman Aklin wants the agricultural department to tell the house who's been smoking cigars that the department has been making; also whether they were paid for and whether they paid any revenue tax. The New York statesman suspects that some of the experimental cigars made by the department have been smoked by officials without warrant of law. No one expects that enough cigars were made or given away to make much difference in the revenues of the government.

#### Fragile Kids.

There is a high rate of infant mortality among children of the imagination.—Life.

## GOVERNOR STUBBS.

Defeats Senator Curtis in the Kansas Primary.

© by American Press Association.

## STUBBS TURNS OUT WINNER

Carries Nearly 100 of 165 Districts for Senatorial Nomination.

Topeka, Kan., Aug. 10.—Returns received from over the state indicate that Governor W. R. Stubbs has carried nearly 100 of the 165 legislative districts. The governor issued a statement in which he declared he easily has won the senatorial contest.

W. H. Thompson also issued a statement in which he claims the Democratic nomination for senator over Hugh P. Farrelley.

## TRYING TO CAPTURE INVADING MEXICANS

American Citizens and Soldiers Are Pursuing Rebels.

Sierra Blanca, Tex., Aug. 10.—Forty Americans, mounted on fast horses and fully armed, departed from here to go in pursuit of 200 Mexican rebels, some of whom crossed the international line forty miles southwest of here and raided the Otto Smith ranch on the American side, stealing several horses.

A special train brought Sheriff P. J. Edwards and twenty-five deputies and Texas rangers from El Paso and this posse was amplified here by cowboys from surrounding ranches. Departing shortly after the sheriff's train was another train bearing a company of the Twenty-second infantry from Fort Bliss. The United States soldiers at Fort Hancock, forty miles east of here, encamped near the border.

The sheriff's posse will move along the border to the west. An attempt will be made to catch the rebels, who are reported to have moved west along the border.

A troop of the Third cavalry from Fort Bliss is marching along the border perfecting the trap, if the rebels again enter Texas.

## OROZCO WEARY OF FIGHTING

Makes Overtures for Peace and Later Repudiates Them.

Mexico City, Aug. 10.—Weary of fighting Pascual Orozco of the Mexican rebels in the north made proposals of peace to the Mexican government, but for some unexplained reason later repudiated them.

## TRUCE IN CARMEN'S DISPUTE

Chicago Employees to Get Final Answer Aug. 16.

Chicago, Aug. 10.—A truce of a week was declared between the employees and the officers of the surface street railway systems of Chicago, who are engaged in a controversy over wages and working conditions.

The officers of the companies will have until Aug. 16 to confer with their financial backers in New York regarding the demands for increased wages. The officials promised they would give the employees a definite answer at that time.

Meantime the elevated employees and officials will continue their conferences. It is expected that an answer also will be given these employees on next Friday.

#### Thirty-five Hurt in Wreck.

St. Louis, Aug. 10.—Thirty-five persons were injured, some seriously, when a Mobile and Ohio train, en route from Mobile to St. Louis, was derailed near here. Relief trains were sent from here. The train was composed of steel cars, which were making their first trip, and trainmen said the steel coaches prevented a loss of life.

## TAFT SIGNS HOMESTEAD BILL

Settlers on Reclaimed Lands May Get Title in Three Years.

Washington, Aug. 10.—President Taft signed a bill which enables settlers on reclamation projects to obtain patent and water right certificates and therefore a marketable title to their property in three years instead of ten years, as under the old law.

The new law, it is said, will prevent the holding of undeveloped land for speculative purposes.

## BRITISH OWNERS ARE INDIGNANT

### HOLDS PRIMARY LAW VALID

Minnesota Supreme Court Sustains Classification Clause.

St. Paul, Aug. 10.—The state supreme court sustained the classification clause of the new primary election law. An opinion handed down by Chief Justice Start affirms the decision of Judge Hale in the Hennepin county district court, in the mandamus action brought by John A. Nordin of Minneapolis against County Auditor Al P. Erickson. Mr. Nordin attacked the new law for its requirements that candidates for office where there is more than one position to be filled, as two members of the legislature in a district, shall file either under "Class 1" or "Class 2," instead of running all under the same list.

The supreme court holds that the restriction is not in conflict with the constitution, because it applies only to the primary, which is not an election.

#### Major Now Leads Cowherd.

St. Louis, Aug. 10.—Attorney General Major has a lead of 2,858 over W. S. Cowherd in the primary race for the Democratic nomination for governor, according to latest figures available. Official returns have been obtained from 104 of the 114 counties in the state.

#### Gems Produced Worth \$343,692.

Washington, Aug. 10.—The geological survey announces that the total production of gems and precious stones in the United States during 1911 aggregated \$343,692, as compared with \$296,797 for 1910. During 1911 American mines yielded \$2,750 worth of diamonds, \$9,500 worth of emeralds, \$215,313 worth of sapphires and \$44,751 worth of turquoise.

#### Where the King Sat.

English vergers no longer turn an honest shilling by admitting spectators to see royalty at church. But some years ago one in a certain country church thought of something even better. King Edward had been occupying one of the pews, and after seeing his majesty depart the clergyman returned to find a brisk business going on. The vergers had seen a way to assist the church restoration fund by charging loyal parishioners a few pence each for the privilege of sitting for a moment in the place still warmed with the royal presence, and he was astonished when the vicar summarily stopped the traffic.

Shipping Concerns Resent Senate's Action on Canal Bill.

### MAY AVOID PANAMA ROUTE

While Conceding Big Trade Is Waiting to Be Done as Soon as Waterway Is Opened British Vessel Owner, Thing Great Preferential Treatment Accorded to American Ships Will Cause Traders to Follow Old Routes

London, Aug. 10.—British ship owners are indignant at the United States senate's action with respect to Panama. They admit that a big trade is waiting to be done as soon as the canal is opened, but are inclined to think that the great preferential treatment accorded to American ships will lead traders to adhere to the old routes.

Representatives of prominent firms have expressed the opinion, however, that much might happen before the canal is opened and that the protests of foreign powers might induce a change in the American policy. The amendment permitting the registration of foreign built vessels as American, it is thought, may likely give impetus to British shipbuilding. The editorial comments continue to display strong feeling.

"The senate's decision," says the Spectator, "is a violation of the clear sense of the Hay-Pauncefote treaty, an example of the sort of policy the United States should studiously avoid if the Monroe doctrine is permanently to commend itself to peace loving nations; it must be honored and respected if it is to remain an instrument of peace. If the senate persists in its present course Great Britain must direct its strongest efforts to getting the tolls question referred to arbitration at The Hague."

The Daily News says that the question of exempting coastwise vessels might admit of argument as to foreign vessels being allowed to engage in the American coastwise trade, but that the other proposed preferences would knock the bottom out of the Hay-Pauncefote treaty and certainly presents a case for arbitration.

The Daily Express says that nothing heretofore has been done or attempted under the pretenses of diplomacy that has been quite so frank in its repudiation of a solemn covenant between great powers and adds:

"We still hope that the president will see the necessity of safeguarding his country's honor and we decline to believe that the United States can be so blind as to refuse arbitration."

Rev. A. Zabel is at Pequot over  
Sunday and so there will be no ser-  
vices in his church, the Zion Evan-  
gelical church in Brainerd.

Rev. E. J. Carlson, pastor of the  
Swedish Lutheran church, leaves  
Sunday evening for Clarissa where he  
will enjoy a week's vacation.

Mr. and Mrs. George H. Crosby and  
their daughter, Miss Margaret Cros-  
by, of Crosby, returned this after-  
noon from a visit at Minneapolis.

Mrs. H. E. Brooks on Thursday en-  
tertained a party of ladies in honor  
of Mrs. Mathew Sonner, of Moberly,  
Mo., a guest of Mrs. Emma Murphy.

Miss Irene Koop, who enjoyed a  
vacation in the city, has returned  
to Duluth where she is taking a  
course as a trained nurse in a large  
hospital.

Home cured roast ham with cham-  
pagne sauce, chicken ala king, will  
be served with the Sunday dinner at  
the Ideal cafe. Telephone for table  
reservations. 1t

George West has returned from a  
visit with relatives in McGregor, Ia.  
Iowa will enjoy splendid crops this  
year, said Mr. West, and the air is  
full of prosperity.

Mr. and Mrs. Edmond Glenn, of  
Kansas City, are in the city on their  
way to Hubert where they will spend  
some time. Mrs. Glenn was former-  
ly Miss Georgia Andeslee.

Brainerd Auditorium to rent for  
dances and public meetings. Apply  
to J. S. Gardner or Prof. Colvin.

Paul Perkins, George West, Mr.  
Nelson and a fourth fisherman spent  
Friday afternoon dodging rain  
storms and angling for fish. They  
came back with a big mess.

Anton Weber, who has a farm in  
Long Lake township, was in the city  
today. Mr. Weber says the crops are  
doing fine. He has 40 acres in oats,  
20 acres in rye, and 15 acres in  
wheat.

## DEVELOPMENTS OF WEEK ON RANGE

County Board of Equalization Makes No Change in Valuation of Mining Properties

### BARROWS MAY SHIP IN 60 DAYS

President Howard Elliott, of the Northern Pacific Railway, Visits Brainerd and Vicinity

The most prominent development during the week on the Cuyuna range concerned matters of taxation. At an adjourned meeting of the county board of equalization, the Rogers Brown Ore Co., the Gorbham-Garrett company of Minneapolis, Cuyler Adams of Deerwood and others objected to being raised on certain mining properties on the range, but the board decided to submit all figures as they now stand to the Minnesota tax commission for final valuation on these properties and no reductions were made for anyone.

The Armour No. 1 and the Armour No. 2 near Ironton and Crosby and the Kennedy mine at Cuyuna are shipping steadily. A train of ore a day is being shipped on the Soo to Superior.

A drill has been placed on the farm of William Musser near Serpent lake. Cole & McDonald are operating it in the northeast quarter of section 18, township 46, range 28.

The Carlson Exploration company of Hibbing has two drills operating in section 18, township 46, range 29.

George H. Crosby has 16 drills at work on the Cuyuna range, as usual upholding his reputation as one of the mining men who has been and is doing much to explore and develop the Cuyuna range. Within 10 days six more drills will be placed at work. Mr. Crosby has drills exploring sections 17, 9, 10 and 16 in township 46, range 29; sections 32 and 23, township 47, range 28.

The Duluth-Metecumma company, in which many Duluth men hold stock, is finding good ore. C. H. Jones is the manager in charge of the company's workings on the range.

Gus Raymond, of Aitkin, has a drill at work in section 28, township 46, range 28, about four miles northwest of Shurt lake.

John Martin is drilling for T. E. Welsh, of Brainerd; John Wahl, G. A. Rydberg and E. B. Anderson of Duluth near Lenox about one and one-half miles southwest of the station and it is said good prospects are being found. These gentlemen and others have associated themselves in a company known as the Iron Valley Mining company.

The Thompson mine of the Inland Steel company at Crosby was recently inspected by P. D. Block, the vice president of the company; Sam Deutsch, H. L. Stern and H. A. Loeb of Chicago, Count Oppenheimer of Wiesbaden, Germany, Capt. William Wearne, general mine superintendent and Division Superintendent Michaels of the Soo line.

Howard Elliott, president of the Northern Pacific railway, was at Brainerd during the week. Supt. J. P. Anderson, of the shops and M. W. Downie, auditor of the M. & I. railway, accompanied him to International Falls and back to Brainerd.

Gustav Elix—an eight grade boy took a full course. We placed him with Stone & Webster, construction engineers, at \$10.00 per week. At the end of 8 months he had advanced to \$35.00 per week. He is still in his teens.

His present address is Keokuk, Iowa, care Stone & Webster.

He took his training in the

## DOUBLE TRAGEDY AT NYMORE THURSDAY

Full Account of Shooting of Deputy Sheriff Helmer of Bemidji by Unknown Laborer

### HELMER WAS WELL KNOWN

Struck Near Heart, Helmer Pulls Revolver and Fires Six Bullets into Body of Assassin

Norman Helmer, the deputy sheriff of Bemidji who met his death so tragically at Nymore Thursday, was well known in Brainerd. The Duluth News Tribune in a special from Bemidji, describes the heroic end to the career of Helmer and the prompt vengeance he meted out to his assassin before death closed its icy hand on the deputy sheriff's fingers.

Deputy Sheriff Norman Helmer, a hero of the battle of Puposky in June a year ago, when Martin Behan was wounded and captured and Mike Davis made his escape, was shot and mortally wounded by a railroad laborer and in turn shot and killed his assassin at Nymore, a mill suburb of Bemidji at 5:45 Thursday afternoon.

After having received a bullet through his body near the heart, Helmer turned on the man who shot from behind and sent six bullets from his automatic revolver into him and the fellow dropped dead in his tracks.

Helmer had been ordered by Sheriff Hazen to go to Nymore and arrest the man who previously had a fight with Charles Smith, an Italian section hand. The only eye-witnesses of the shooting were three small boys each about 10 years old. They were Tony Brink, Arthur Tontou and Lawrence Halseh. After emptying his revolver Helmer took about six steps and then fell across the track, his chin being badly gashed by striking one of the rails.

Those who rushed to the scene barely had time to run up the track and flag the evening train to prevent it running over him. Deputy Cahill quickly was on the scene as was also Sheriff Hazen himself. Coroner Ibertson was notified and took charge of the bodies.

Helmer is survived by a wife and 12-year-old daughter. It was Helmer who led the band of deputy sheriffs who with Sheriff Hazen and Detective Fielding of St. Paul made the midnight attack on Mike Davis, and Behan during which several shots were fired, the affair resulting the next morning in the arrest of Dr. D. F. Dumas, at that time mayor of Cass Lake on an arson charge. Davis and Behan it was asserted had been employed by Dumas to burn and rob the postoffice building at Puposky.

### Bids Wanted

Bids received up to and including August 17, 1912, for certain repairs to be made to school house in District No. 14. Work to be completed September 15, 1912. Apply to school board in said district. Phone 410-2. Charles Pentin, Clerk, Charles Swanson, Chairman, Andrew Jackson, Treasurer.

### Nicaraguan Rebels Want Peace.

Corinto, Nicaragua, Aug. 9.—Latest advices received here respecting the situation in Nicaragua indicate a desire for peace on the part of the rebels under the former war minister, General Luis Mena. The American guard at Managua has given a feeling of security to all American and other foreign residents.

### Winter Rye

Winter rye seed for sale, first class quality. J. M. Hayes, 1022 Seventh St. S., or at Barrows. 5814-w13

### Flying Men Fall

victims to stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like that as T. D. Peebles, Henry, Tenn., proved. "Six bottles of Electric Bitters" he writes "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer from this great remedy will help you from the first dose. Try it. Only 50 cents at all druggists.

### The Piano Case.

To restore polish on a piano case first dust it with a dry, soft cloth, then dip a piece of chamois skin of good size in clear, cold water and wring as dry as possible, rub over the piano with this and if the skin becomes soiled rinse well and use again, always wringing as clear of water as possible each time. When it is clean polish with a soft dry skin.

### An Improvement.

"Mrs. Newrich has put a beautifully carved sundial in her Italian garden." "Yes?" "And she has arranged to have it electrically lighted at night so she can tell the time at all hours."—Cleveland Plain Dealer.

### She Hit Back.

He—Women have no real judgment in serious matters. She—Yes, and men count on that when they ask women to marry them.—Baltimore American.

Disgrace is immortal and living even when one thinks it dead.—Plautus.

### LATEST DEVELOPMENTS

Cook Who Robbed George West Reported to Have Been Traced to Farm South of City

The night cook who, it is alleged, played a tune on George West's cash register and got away with \$45 is reported to have gone out to a farm near South Long lake and to have added another misdeed to his list which causes the cash register to pale into insignificance.

"Well, tell it to us, fellow, don't keep us in suspense. What did he do?" "He cut the throats of three little pigs."

"Why should he do such a trick?" "To prevent them from squealing on him."

## PERSONAL PROPERTY ASSESSMENTS

Of Individuals, Firms and Corporations in the County for Year of 1912

### AMOUNTING TO \$2,000 OR MORE

First National Bank of Brainerd Heads the List at \$33,706

The following concludes the list of personal property assessments of individuals, firms and corporations in Crow Wing county for the year of 1912, containing all assessments the aggregate amount of which is \$2,000 or over, as equalized by the county board of equalization and reported to the Minnesota tax commission:

### Deafness Cannot be Cured

We will give One Hundred Dollars for any case of Deafness (caused by ear) local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. E. J. CHENEY, Cat. Co., Toledo, O. Sold by Druggists, 7c.

### Darkest London.

Speaking at Church House, London, the archbishop of Canterbury said central south London, comprised within the bend of the Thames, formed the largest area of practically unbroken poverty in the British Isles.

## More New Cossacques

This dress accessory is quite popular and will appeal to you if you like something new and natty.

## Our Special Hosiery

Our special gauze lisle hosiery selling three pair for \$1.00 is an unusual value. Fact is, you will find it difficult to find an equal for less than 50c the pair.

35c the pair or 3 pair for \$1.00.

## "MICHAEL'S"

### THE DANISH FARMER

Made Prosperous by Practical Education, Co-operation and Intelligent Help of Government

(By Maurice F. Egan)

Today the Danish farmer buys nothing individually. He uses no seeds until they have been tested by experts furnished by the co-operative society. He buys his fertilizers, soja beans from Manchuria, cottonseed meal from the United States, through the co-operative society. He never kills his own hogs, though there are 500 hogs to every 1,000 persons in Denmark, but sends them to the co-operative bacon factories.

He has, through the co-operative society, the use of a scientific expert, who visits his farm every eighteen days and answers all questions after consultation with him. Furthermore, he keeps a duplicate set of books for the farmer, so that the farmer knows exactly the amount of butterfat each cow yields every week, when the cows are expected to calve, the value of the service of every bull in use, and the exact position of the farmer economically and agriculturally. For this service the farmer pays the expert 30 cents yearly per cow, the government paying the rest of the expert's salary—the expert being attached to the Royal Danish Co-operative society.

Denmark is a country which comprises 15,000 square miles, which is, I suppose, about four times the size of Delaware. It supports at least 2,500,000 persons in very good condition, and sends out of the country each year, at a conservative estimate, \$150,000,000 worth of butter, bacon and eggs. At least \$90,000 worth of this export goes to England; but the British market is retained not alone by the invariable quantity set out, summer and winter, but by the invariable quality, Danish butter being the highest priced butter in the British market.

I was sent by the department of state to expose to dairymen, and farmers especially interested in dairying, the methods by which the Danes have become the most prosperous people agriculturally in Europe. When I say most prosperous, I mean by comparison, and taking into consideration the obstacles they have had to meet and overcome. The wealth per capita of Denmark is comparatively next to that of England. This wealth, however, is equalized. There are no very rich people there. Every man is fairly well off, but the poorer he is, the more carefully does he conserve his resources. Material well-being is as common in Denmark as education.

There is no illiteracy in the country. Every man, woman and child over the age of 7 years, unless he is an idiot, can read and write. The methods by which they have achieved their present prosperity are three: Education—practical education—a perfect system of co-operation, and the intelligent assistance of government.

The only means of living which the Danes have is agriculture. Denmark, like Julius Caesar's Gaul of ancient days, is divided into three parts—butter, bacon and eggs. Now, the government does everything in its power to increase the number of small farmers, and this it has done by making money as cheap as possible to the farmers. It controls a great series of banks, managed somewhat after the manner of the Credit Foncier.

An agricultural laborer in Denmark, who has worked on a farm for five years, who has a character so good that two reputable members of his commune will certify to it, may obtain from one of these banks a loan of about \$1,582 in our money. He obtains this solely on his character and ability and not by any material security he can offer. With this money he may purchase a farm of from 3½ to 12 acres. This farm means live and dead stock on the land and the necessary implements for the working of it. The amount loaned by the bank covers probably nine-tenths of the value of the farm—not of the land, because land in Denmark is never sold merely as land. The farm is judged by the value of its

Cheap Sheep. Sheep could be purchased in England for fourpence apiece in the twelfth century.

## HENRY BELL'S COMET.

The First Steamer That Plied For Hire In Great Britain.

Among the curiosities of advertising may surely be placed the first advertisement of the first steamer that plied for hire in Great Britain—namely, Henry Bell's Comet. Thus ran the advertisement in the Glasgow Courier of 1812:

"Steam passage boat, the Comet, between Glasgow, Greenock and Helensburgh. For passengers only. The subscriber having at much expense fitted up a handsome vessel to ply upon the river Clyde between Glasgow and Greenock—to sail by the power of wind, air and steam—he intends that the vessel shall leave the Broomielaw on Tuesdays, Thursdays and Saturdays about midday or at such time thereafter as may answer from the state of the tide and to leave Greenock on Mondays, Wednesdays and Fridays in the morning to suit the tide. The elegance, comfort, safety and speed of this vessel require only to be proved to meet the approbation of the public, and the proprietor is determined to do everything in his power to merit public encouragement. The terms are for the present 4 shillings for the best cabin and 3 shillings for the second, but beyond these rates nothing is to be allowed to servants or any other person employed about the vessel."

What would poor neglected Henry Bell have said could he have seen his humble little Comet, of whose elegance, comfort and speed he was so proud, alongside a modern ocean liner or one of the latest palatial river steamers of the Clyde or Thames, all so well advertised?—Chambers' Journal.

## THE GOLDFINCH.

Changes in Plumage That Are Puzzling to the Novice.

Most every one in America is acquainted with the goldfinch, but many people know the bird by the name of lettuce bird on account of its bright yellow color. Goldfinch is a very appropriate name, as the bright yellow plumage is like burnished gold. The female goldfinch is more modestly dressed than her mate. The changes in plumage of the male are very interesting and to the novice somewhat puzzling.

Until the student becomes acquainted with the bird he may wonder why he sees no males during the winter. The truth is at this season the flocks of supposed female goldfinches are really of both sexes, the male bird having assumed in the previous fall, usually by the end of October, a plumage closely resembling that of the female and young bird of the year. The male retains this inconspicuous dress until late in February, when one can notice a gradual change taking place in some of the birds.

This renewal of feathers is actively continued through March and April, and by May 1 our resplendent bird is with us again. The song period with the male goldfinch continues as long as he wears his gold and black livery, for it commences as early as the middle of March and ends late in August.

## A Successful Interview.

The late Arthur McEwan when he was working on a San Francisco newspaper was attracted by the activities of a politician who was vulgar, illiterate and hideously ungrammatical in his method of expression. McEwan looked up this man and had a talk with him. Then he went back to the office and wrote the interview in the most perfect English, brilliant, polished and crammed the story full of classical allusions, quotations and big words. It was a most scholarly production, and McEwan considered the satire great. Next day McEwan had a call from the politician. "I wanted thank yez for that interview," he said. "It's bully. Just what I said. You must be a grand shorthand reporter."—Saturday Evening Post.

## OUR EARLY RAILROADS.

Rules That Used to Be In Force Half a Century Ago.

A curious relic of railroad operation some fifty years ago in Tennessee and Georgia is exhibited in the following extracts from the rules then in force:

Each engineman will keep a watch, which must be regulated by the time of his conductor at the commencement of each trip and will always have in his possession the current schedule book.

Should any stock be killed which may be likely to endanger the safety of the next train passing, the engineman will stop his train until track is cleared.

As a general rule, when trains meet between stations the train nearest the turnout will run back. Any dispute as to which train has to retire is to be determined at once by the conductors without any interference on the part of the enginemen. This rule is required to be varied in favor of heaviest loaded engine or the worst grades. If they meet near the center, in case of backing, a man must be placed on the lookout, so that any danger to the rear, most part of the train may be seen and the engineman at once receive notice. The backing must be done cautiously.—Railroad Man's Magazine.

## Martyrdom of the Bride.

A peculiar and barbaric marriage custom of the Kabyle women of Africa consists in the martyrdom of the bride, who, clad in her wedding finery, stands through an entire morning against a pillar in the village square, her eyes closed, her arms pressed to her sides and with only the narrow base of the column for a foothold, the while a ring of villagers criticise and comment on her appearance.—Argonaut.

## Evidence to the Contrary.

"You've had a bad cold in the head, have you, Brooks?" said Rivers. "Well, one good thing about that is that it doesn't make you cough."

Whereupon Brooks, without a word, exhibited the doctor bill he had just received.—Exchange.

# BRAINERD vs. BENTON COUNTY Sunday, Aug. 11

The last league game with Benton County. Game called at 2 p. m.

**J. H. KREFFELBERG**

## CHARITY.

Charity is a universal duty which it is in every man's power sometimes to practice, since every degree of assistance given to another upon proper motives is an act of charity, and there is scarcely any man in such a state of imbecility as that he may not, on some occasions, benefit his neighbor.—Johnson.
